

Today, April 22, is Earth Day. Earth Day is an annual event to demonstrate the importance of supporting environmental protection. This year's theme is "Together, We Can Restore **Our Earth**".

On this Earth Day, RTOERO District 22 is excited to shine a light on our continuing commitment to focus on environmental stewardship. In accordance with this year's Earth Day theme, we are pleased to announce two events; a D22 talk on May 6th and an RTOERO webinar, "Our Earth, Our Responsibility: Take Action", on April 29th (rtoero.ca/vibrantvoices) .

RTOERO District 22 is delighted to invite all members to a presentation by the founder and president of the Association of Canadian Educational Resources and D22 member, Alice Casselman. "**Climate Change and Gardening**" will look at the impact of climate change on our environment, the important role of trees, and suggestions of what to plant looking ahead to the year 2050. There will be an opportunity for questions.

Mark Thursday, May 6th at 1:00 pm on your calendar.

The Zoom link will be sent out to all District 22 members a few days before the presentation.
