

Communication

As your district executive, we have also been very concerned about our lack of ability to communicate with or meet face-to-face with members. The personal face-to-face meetings and social events are yet in the distant future. Virtual meetings via a medium such as “ZOOM” are a possible solution and we are working on establishing this method of interaction with members. So please look for future eblast messages providing information on these virtual meetings so that we can re-establish some sense of community.
