

Best Doctors LIVE Webinar Series

Mental health: Putting it into perspective

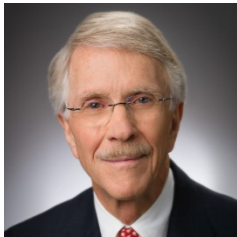

Thursday, February 23, 2017 | 2 PM – 3 PM E

Mental health is one of the most important factors of a person's wellbeing, but many feel mental illness is not a comfortable topic for open discussion. This webinar will debunk the thinking that mental illness is different from other physical medical conditions or something that should be kept hidden. During this webinar our experts will also cover the steps it takes to diagnose mental illness and what the patient should expect during this process.

This webinar will be presented by Dr. John Oldham and Best Doctors own Dr. David Harrison. Dr. Oldham is the senior vice president and chief of staff at The Menninger Clinic and oversees clinical care at Baylor College of Medicine, including the public psychiatry division of Harris County Hospital District and The Baylor Psychiatry Clinic. As the Best Doctors U.S. Medical Director, Dr. Harrison ensures the highest quality in our clinical services, organizational infrastructure and service line processes.

There will be time for live Q&A after the presentation. We hope that you will be able to join us for this free educational webinar!
